

## ACTIVE-X SETUP TUTORIAL

*If you are using a computer with Windows XP Service Pack 2 (SP2), then your Internet Explorer will try to prevent the installation of the Surveillance Software. These are the steps that must be performed to allow the software to install properly:*

- 1) From your computer, run your Internet Explorer Web Browser 
- 2) Click the **Tools** menu and select the last menu item: **Internet Options...**

- 3) Click the **Security** tab at the top of the dialog box:

- 4) Then click the **Trusted sites** icon: 

- 5) Then click the **Sites...** button: 

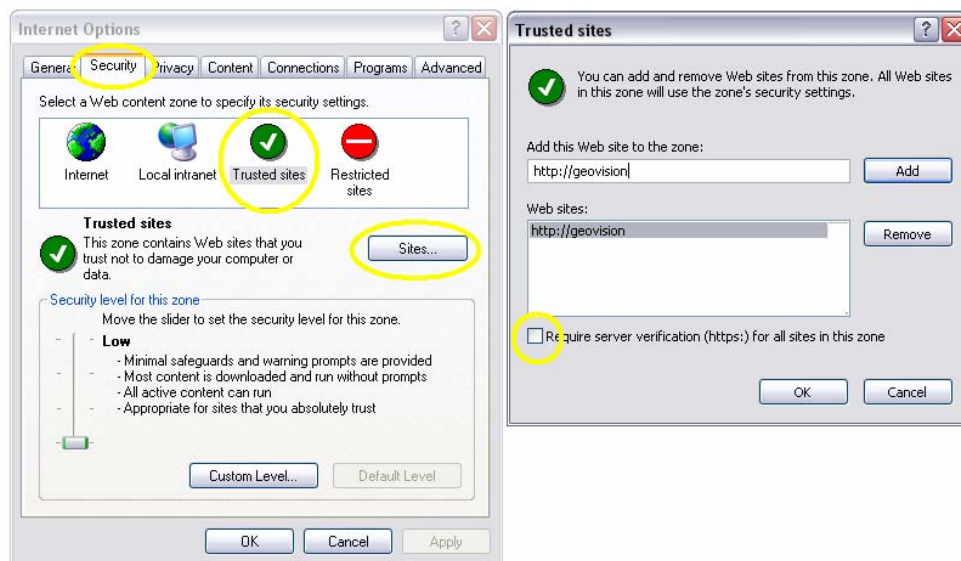

- 6) When the **Trusted sites** dialog box opens, immediately click OFF the check box at the bottom:

- 7) Now type the address of your surveillance system in the box provided and click the Add button.

**For the DEMO type: <http://205.210.53.98>**

- 8) Then click OK to close the Trusted sites dialog box and OK again to close the Internet Options dialog box.
- 9) That's it! You will now be able to view surveillance video on your PC.
